INTRODUCTION

Our Commercial Range

Our carefully selected portfolio contains not only the market leading Commercial brands that you would expect, it also features lesser known brands that meet our ethos for quality and performance. We are proud of the manufacturers that we work closely with, carefully selecting the equipment to ensure reliability, build quality and most importantly the correct price point for you.

Why Choose Commercial?

Commercial equipment is designed and tested for its purpose. Commercial ensures reliability and consistent performance reducing the risk of break downs which can create a nuisance in the middle of a busy service. The build quality is harder wearing and capable of the usage it's designed for. To achieve a commercial status, the equipment is tested in many different environments and in many ways. This gives the guarantee that it will do what it is meant to do.

We are also very aware of the carbon footprint that our equipment has. Lighter duty, cheaper

options have a shorter lifespan and so add to the ever-growing problem of waste disposal. We encourage our customers to invest in their equipment, allowing them to have confidence in the equipment as well as doing their bit for the environment too.

Warranty

All products come with a manufacturer's warranty. This will either be a Parts Only or a Parts & Labour Warranty and will be clearly marked per unit.

Parts Only Warranty: Replacement Parts will be provided but the labour cost of the engineer will not.

Parts & Labour Warranty: All costs are covered by the manufacturer (exclusions will always apply).

We are able to offer Parts & Labour Warranty for all products in this brochure but additional charges will apply to those that come with a manufacturer's Parts Only Warranty as standard.

CONTENTS

STORAGE REFRIGERATION

Chest Freezers	9-10
Undercounter Fridges & Freezers	10-12
Upright Fridges & Freezers	12-16
Baker Cabinets	16

Carvery Units	86

STERLING PRO

Where quality and value meet! With all the features you would expect from a premium brand quality product, Sterling Pro offers the discerning caterer the best of both, while rapidly becoming the refrigeration engineer's choice.

A globally recognised brand whose commercial portfolio includes laundry, ice makers and refrigeration. Delivering their efficient 6th Sense Technology together with energy efficient designs, energy bills are kept to a minimum.

VESTFROST

Established in 1963, Vestfrost have grown to become one of the leading manufacturers of storage refrigeration. From chest freezers to uprights, wine display to medical storage, Vestfrost's cabinets offer excellent reliability backed up with an amazing 3 Year Parts and Labour warranty.

Manufactured in Germany, the Ecomax range of catering equipment, dish and glasswashers, together with the Ecomax Plus models, offer the quality and reliability users would expect from Hobart, at a great price.

Atosa Catering Equipment is a leading high-tech manufacturer that encompasses scientific research, design, innovation in sales of commercial refrigeration. Leading the way in Climate Class, energy consumption and full stainless-steel construction.

Adler is a high quality manufacturer of glass and dishwashers. Established in 1960 in Italy, Adler has over 250,000 machines in service around the world and this depth of knowledge means they produce reliable and functional products.

autonumis

Established in 1962 Autonumis are a privately owned light engineering company supplying refrigerated display cabinets, chilled drinks dispensers and vending equipment to major brand owners, distributors and end users.

Spanish manufacturer Coreco is known throughout Europe as a producer of high quality refrigeration. Utilising the best of components together with their years of experience, the finished article is a premium product that will stand up to the harsh environment of a commercial kitchen.

Manufacturers of high quality warewashing and ice makers, and experts in their field, DC ensure only the highest quality components can be found in their products. The dish and glass washers are simple to maintain while providing customers with a cost-effective solution for their warewashing needs.

Diamond

European manufactured quality products at competitive prices, ranging from display refrigeration through to blast-chillers, food prep to cooking. Only the best products get the Diamond seal of approval.

Exceptionally high quality chest freezers made using high quality components in their factory in Denmark. With over 40 years of experience in refrigeration production, the Elcold range includes some of the largest chest freezers available.

In its 65 year history, Fama has built up a strong reputation as one of the top manufacturers of food prep and cooking equipment in Europe. With products produced in their state-of-the-art factory in northern Italy, Fama ensure only the highest quality components are used. Their range includes stick blenders, gravity slicers, meat mincers, cheese graters, veg prep machines and conveyor toasters.

FOSTER

One of the best known names in commercial refrigeration with over 70 years of expertise, Foster are at the cutting edge of refrigeration design. Their storage cabinets offer all the latest innovations and environmentally friendly options the commercial caterer could need.

GAMKO

Gamko is a leading manufacturer and supplier of professional drinks refrigeration for the bar, leisure and catering industries. Established in 1958 and sporting over 60 years of drinks cooling expertise, providing a flexible product range.

GRAM

Our Gram refrigeration units are engineered to perform in demanding environments, giving you peace of mind. With a smart interior and exterior design, our cabinets and counters offer quality cooling for your fresh produce.

HOSHIZAKI

Hoshizaki is a leading manufacturer of commercial kitchen and food service equipment. Their ice makers are designed with hygiene as a priority. Each ice cycle is made with fresh water, ensuring only the highest quality of ice. Its recognized for its precise shape, clarity and slow dilution.

Ice-A-cool

Cool, quality, cost effective refrigeration. Ice-A-cool is a new brand by Atosa for their green range of upright refrigeration, counters, preparation and display refrigeration units.

LABCOLD

A leading specialist manufacturer and supplier of medical and laboratory refrigerators and freezers. Labcold refrigerators and freezers have developed a reputation for being safe, secure and reliable.

Lec

Offering a range of pharmacy, ward and laboratory refrigeration - Lec Medical has been a key provider of medical refrigeration for over 70 years, utilising extensive industry knowledge to create innovative and exceptionally high quality appliances.

LIEBHERR

Family run since 1954, Liebherr brings exceptional German design combined with robust Austrian build quality. Reliable, energy efficient and cost effective refrigerated storage solutions that will last.

MASTER FROST ICEMAKERS

Established in Greece, 1965, Masterfrost has been producing professional ice makers for over 50 years - focussing purely on quality, efficiency, affordability and low running costs.

Miele

Miele Professional appliances are produced in their very own expert centres in Germany and Europe. Offering great value, the Miele laundry and dishwasher range offers customers long service life, low consumption of water and energy, and quick and reliable work processes.

MOFFAT

Commitment to quality and innovation has made E&R Moffat one of the the UK's leading catering equipment manufacturers, producing food displays, servery counters, backbar and kitchen equipment.

Prodis

Prodis embody their philosophy of "Economy Without Compromise", delivering high quality equipment without having to compromise on the quality, reliability or features. Their range features both storage and display refrigeration units.

SAMSUNG

Samsung follows a simple business philosophy: to devote it's talent and technology to creating superior products and services that contribute to a better global society. To achieve this, Samsung sets a high value on its people and technologies. Their range varies from commercial washers and dryes to heavy-duty microwaves.

Scotsman

For over 50 years Scotsman has been one of the world's leading manufacturers of ice machines. Today the brand offers hundreds of model variations, producing more different types of ice than any other manufacturer.

Purever UK

The Purever range of coldrooms offers quality at a great price. With multiple sizing options available in both chillers and freezers, these rooms are an excellent choice.

NEW TO COMMERCIAL EQUIPMENT

INTRODUCING STERLING PRO COBUS

Cobus is Sterling Pro's new entry level range of Commercial Refrigeration.

With all the quality and functionality you expect from Sterling Pro, **Cobus** carries a One Year Parts and Labour Warranty as standard and is backed by our industry leading marketing and service support.

Comprising of 35 models, we're confident you will find the right solution for your business within our stunning **Cobus** range listed below:

NEW TO COMMERCIAL EQUIPMENT

MASTERFROST PROFESSIONAL ICE MAKERS

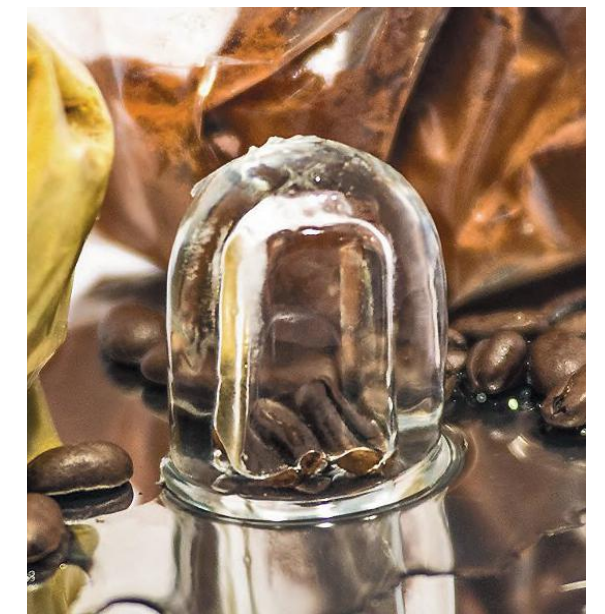

Established in Greece, **Masterfrost** has been producing professional ice makers for over 50 years - focussing purely on quality, efficiency, affordability and low running costs.

During that time they have introduced several unique and innovative concepts that demonstrate their commitment and unrivalled expertise. They are still investing heavily in research and development today to ensure their machines meet the needs of today's global market.

Producing bullet-shaped ice cubes with a hole, the C-Series from **Masterfrost** uses an innovative hybrid water and air cooling system that enables the machines to work in extremely high ambient temperatures of up to +43°C. Unlike other water-cooled ice makers, it does this without using more water than an air-cooled equivalent. This system also aids efficiency and the current C-Series saves up to 35% more energy than a standard model.

Support

High efficiency components

Low energy compressors, large area evaporators and high performing electronic fans that minimize temperature gains, reducing energy consumption.

Integrated Stainless Steel handle

Ergonomic, Stainless Steel made, robust, perfectly integrated handle ensures practical opening of the door that avoids dust and dirt collection and is extremely easy to clean.

Insulation - 80mm thickness

80mm thickness CFC-free, high-density (40kg/m³) polyurethane insulation, guarantees exceptional, long-term insulation and energy savings in all Vantage cabinets.

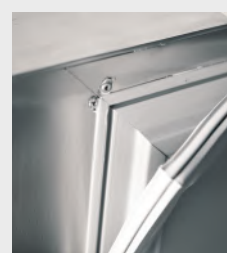

Intelligent air circulation system

Perfect temperature consistency with its innovative airflow design that encircles the food and ensures its proper conservation.

Rounded edge interior

Easier cleaning operations to reduce potential dirt traps and optimum hygiene.

Removable door gasket

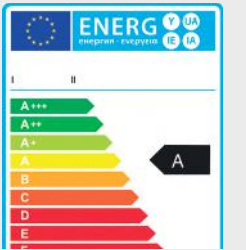

Removable pull-out/push-in magnetic door gasket to keep maximum hygiene and maintain the insulating properties.

Maximum energy savings

The XPI700 refrigerator achieves the highest A Rating under the conditions defined in climate class 5, ensuring the maximum energy savings.

*The label complies with the delegated regulation (UE) 2015/1094 of the commission of 5th May 2015

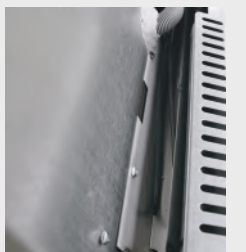

Compact controller

Extra large, screen touch controller with energy saving strategy and HACCP alarm system, which allows an easy temperature parameter adjustment ensuring the best food preservation. It also offers a Bluetooth data logger as an option.

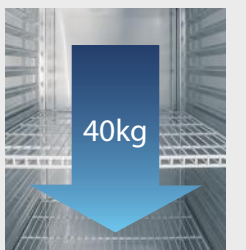

Evaporation of defrost water

Hot gas coming from the compressor is used to automatically evaporate defrost water, instead of by means of heating elements, achieving even less energy consumption.

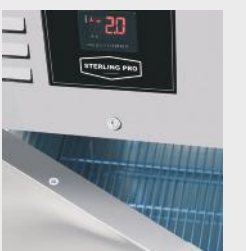

Stamped guides, sturdy wire grids

Stamped guides with rounded edges enable more convenient cleaning operations without any difficulties. Plastic coated wire grids allow storage of different packaging types and have a maximum loading capacity of up to 40kg.

Internal LED lighting

Low energy consumption LED lighting to display the interior, standard in all Vantage upright models.

Self closing hinged doors

Hinged doors with automatic return for a perfect closing that minimize temperature gain and reduces energy consumption. Doors have a 120° dwell position and closes automatically at less than 90°. Door hinges are also reversible.

STERLING PRO VANTAGE PREMIUM DOUBLE DOOR GASTRONORM CABINETS

- Refrigerant: R290a
- Power supply: 13 amp plug
- XPI142 fridge energy consumption: 540 kWh/year
- XPI142V fridge energy consumption: 829 kWh/year
- Freezers energy consumption: 4482 kWh/year
- High quality Stainless Steel exterior and interior
- Hinged doors with automatic return
- Reversible hinges that can be adapted on-site
- 24 grid level positions for increased loading capacity
- 80mm thick (CFC-free) polyurethane insulation
- Extra large touch screen controller
- Forced draft evaporator with anti-corrosion cover
- Intelligent air-circulation system
- Max ambient of 40°C
- Plastic coated wire shelves
- Low energy consumption LED lighting
- HACCP alarm system included
- Door switch that stops the fan when door is opened
- Supply voltage: 230/1N 50Hz
- Removable pull-out/push-in door gasket
- Rounded edge interior to reduce potential traps
- See pages 17 & 18 for more Vantage range features

OPTIMA COLDROOMS

The Optima coldrooms are designed to provide low cost, high quality solutions for small restaurants, fast food establishments, supermarkets and even private individuals. The use of high quality materials and modern manufacturing techniques enables you to offer your customer maximum flexibility with minimum running costs.

Quality

- Roof and wall panels are made from galvanised steel panels
- Floor panels are reinforced and are made of synthetic resin
- All rooms are manufactured with modern techniques
- All panels have high-density 85mm foam insulation
- CFC and HCFC free panels
- Heavy-duty handles and locks

Assembly

- Provided with everything you need
- Quick and easy assembly
- Panels join using simple cam-lock system
- Joined and sealed with silicon (provided)

Flexibility

- 92 different sizes available
- Coving and skirting available
- Two different heights
- With or without floor panels
- Left or right-hand hinged door
- Monoblock or remote motor options

Equipped

- Provided with everything you need
- Pressure balance valve with freezer models
- Door heaters with freezer models
- Tools, sealant, instructions and fittings provided

WHIRLPOOL OMNIA AWG1112/PRO 6TH SENSE WASHER SANITATION PROGRAMMES

The Whirlpool AWG1112 has Hygiene and Working Clothes programmes with **high temperature washes of up to 83°C**. The Hygiene programme is specifically developed to provide maximum hygiene cleaning results, while guaranteeing your laundry is safe and sanitised. Whereas the Working Clothes programme is for dirty working clothes made of robust cotton material or cotton-synthetics blends.

THE OPTIMAL WASH PROGRAMMES FOR...

businesses where cleanliness and hygiene are vital to prevent contamination and the spreading of germs.

Perfect for:

- Care homes
- Sports and fitness clubs
- Hotels and B&Bs

DEEP SANITISING ACTION

- Extremely high temperatures
- kept for a long time
- Strong and intensive mechanical action due to continuous drum movements
- 2 rinses with cold water

MASTERFROST PROFESSIONAL BULLET ICE MAKERS

- Refrigerant: R452a
- Power supply: 13 amp plug
- Stainless Steel exterior finish
- Produces bullet-shaped ice with holes
- Hybrid water and air cooling system
- Ice weight: 18 - 32 grams
- Ice size adjustable from W16mm-38mm x H42mm
- Max ambient of 43°C

Model	Capacity	Ice Per 24h	Energy Consumption	Dimensions (mm) Width / Depth / Height	Price

DC SELF-CONTAINED CLASSIC GOURMET ICE MAKERS

- Refrigerant: R134a
- Power supply: 13 amp plug
- Stainless Steel exterior finish
- Antibacterial plastic interior
- Produces solid cubes of crystalline ice
- Ice cools quickly and melts slowly
- Insulated storage bin
- Spray system technology
- Max ambient of +43°C

Model	Capacity	Ice Per 24h	Dimensions (mm) Width / Depth / Height	Price

SCOTSMAN ECO-X SELF-CONTAINED GOURMET ICE MAKERS

- Refrigerant: R290 (AC206/226: R452a)
- Power supply: 13 amp plug
- Produces individual gourmet crystal clear ice cubes
- Agion technology resists the growth of microbes
- Advanced diagnostics & computerised controls
- Ergonomically designed storage access
- Stainless Steel exterior
- Legs are optional (AC47 and AC57 only)
- Optional water filters recommended

SAMSUNG

Introducing the Samsung large capacity commercial washing machine and heat pump dryer range.

With a **huge 18kg capacity**, the stylish **WF18T8000GV** washer comes with a black caviar finish and tinted doors with black deco. It's cycles include: Heavy-Duty, Hygiene Steam, ECO and Intense Cold.

The equally stylish **DV16T8520BV** 16kg dryer boasts a **A+++ energy rating** and comes included with Hygiene Care+ and Delicates cycles. See **page 63** or scan the **QR code for more information**.

WF18T8000GV
18kg Washing Machine
2 Years Full Warranty

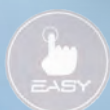

DV16T8520BV
16kg Heat Pump Dryer
2 Years Full Warranty

Adler is a high quality manufacturer of glasswashers and dishwashers. Established in 1960 in northern Italy, they have grown to become an innovative and highly specialised manufacturer with markets all over the world.

View our Adler warewashing range on pages 68-71 for more spec.

Easy maintenance and service thanks to a simple clear tank with tool-less removable filters and sharp free rack support, which facilitate daily cleaning on the machine even in the most difficult of parts. The automatic and self cleaning drain pump helps to drain out the water from the tank. This range also has easy access to components via a quick removable front panel which reduces service time.

Safe, robust and reliable during each cycle thanks to a thick insulated wall structure made of inox Stainless Steel AISI 304. Sturdy and double insulated door with reinforced hinges for long life reliability. The range is provided with an ergonomic and sharp free rack support. All of the warewashers are safely tested and strictly controlled before they are sent out to customers.

Efficient wash arms and wash motor pump in combination with a double filtration system and selection of different cycle programmes will ensure excellent washing results. In order to eliminate bacteria, the final rinse will reach temperatures of up to 85°C with a spray jet designed to cover every object placed in the racks. This range also offers adjustable rinse and detergent dispensers to achieve brilliant and clean dishes or glasses without flakes and stains.

Our efficient incoloy heater elements directly heat the water to reduce heat waste and increase energy saving. Detergent and rinse aid dispensers are also adjustable in order to optimize chemical dosing and reduce its consumption. All our warewashers are certified and tested by external laboratories to ensure high energy efficiency standards are met.

Saving costs of running and maintenance today is a must and only possible with an efficient wash system. The main factors that contribute to running costs of a warewasher are: water, energy and chemical consumption. Adler warewashers have reached a minimum level of waste, using new innovative systems that could save up to 45% on running costs in comparison to previous models.

TERMS & CONDITIONS

For a full copy of the Terms & Conditions please refer to the website prior to placing an order. If you are unclear on any of these points please speak to a member of the sales team for further advice prior to placing an order.

All orders accepted by the Seller will be subject to these Terms and Conditions of Sale.

While every attempt will be made to adhere to our published "Price List" we reserve the right to alter or amend prices without prior notification. Prices quoted are exclusive of Value Added Tax.

CANCELLATION

The Seller will only accept cancellations as follows:

- a) If the Buyer cancels after goods have left our warehouse a charge of 25% of invoice value plus delivery charges will be levied.
- b) If the goods have been used by the Buyer or his Agent then the goods will be deemed unreturnable and the order cannot be cancelled.
- c) An additional charge of £ 55+vat per item will be levied if the Seller is required to collect packaged goods from cancelled orders.
- d) Special equipment ordered by the Buyer will be subject to special conditions, Please contact our sales office for further details. Cancellation will not be accepted on special orders.

DELIVERY

Our free of charge standard delivery is to UK Mainland and will take place between 8-6pm. The leadtime varies and is clearly marked by product. The seller will at all times attempt to meet the Buyer's delivery requirements as communicated at point of order however the seller will not accept any liability for losses what so ever (including food losses and labour on site) sustained by a late delivery by the Seller or his Agents. Delivery dates are given as guide dates only and are under no contractual agreement. Additional services such as disposals/timed deliveries and unpack and positions are available but costs vary by product; please contact our sales office in advance of placing your order.

OWNERSHIP AND RISK

From the time of delivery to the Buyer or to the assigned point of delivery, the equipment shall be at the Buyer's risk. Ownership of the equipment shall not pass to the Buyer until payment in full has been received by the Seller.

The Buyer shall take the appropriate steps to notify any third party of the Seller's interest in the equipment and in the event of a threatened seizure of the equipment or of the appointment of a receiver or liquidator or administrator, shall, immediately notify the Seller and the Seller shall be entitled to repossess the equipment upon which the Seller retains Title from the Buyer's premises or location.

DAMAGE

It is the Buyer's responsibility to inspect the equipment at the time of taking delivery prior to signing to accept it. Drivers are given 15 minutes on site to allow for this. Product damage can occur without any obvious sign to the outer packaging so it is essential that the product itself is checked before signing to accept delivery.

Should equipment arrive damaged this must be recorded on the delivery note/drivers device and the Seller notified in writing within 24 hours. Claims for damage will not be entertained if the item has not been noted as damaged when signing the carrier's device or paperwork.

WARRANTY

The Warranty cover will depend on the appliance sold. All products are shown with the standard warranty offering. Where the manufacturer offers a parts only warranty we recommend that you purchase the upgrade available to cover the labour aspect of any service charges.

The validity of your warranty relies on the proper care and servicing of the appliance as laid in the manufacturer's manual. Call outs that are deemed to be user error will be charged on in full.

Any loss or damage to consumables caused by a failure of the equipment is to be the responsibility of the Buyer and should be covered by the Buyer's insurance.

WEEE DIRECTIVE

UK WEEE Regulations (SI2006/3289 Waste Electrical and Electronic Equipment Regulations 2006 as modified by any subsequent legislation).

Future WEEE: The Seller sells its products either retaining the Producer's obligations under the WEEE Regulations or with our customer taking on those responsibilities. In either case the customer must clearly state which of these options he requires and this must be documented.

The Seller will confirm this option on its order acceptance documentation. The customer must agree to disclose this agreement to any subsequent purchaser(s) of this equipment, as required by the regulations.

Historic WEEE The purchaser agrees to absolve The Seller from its obligations under the UK WEEE Regulations which require The Seller to be responsible for financing the collection, treatment, recovery and environmentally sound disposal of any product supplied before 13th August 2005, where a similar new product is being purchased.

The Company undertakes the collection, treatment, recovery and environmentally sound disposal of any product supplied before 13th August 2005 (or outside the scope of the WEEE regulations) subject to payment of its current disposal fees.

FORCE MAJEURE

The Seller shall not be liable in respect of any breach of contract due to any cause beyond his reasonable control including Act of God, inclement weather, flood, lightning or fire, industrial action or lockouts, the act or omission of Government, highways authorities, other competent authority, war, military operations or riot, or the act or omissions of any party for whom the Seller is not responsible.

APPLICABLE LAW

Any contract shall be deemed to be made in England according to English Law and subject to the jurisdiction of the English Courts.
